

Population Payment Management Episodes of Care Module

⚡ \$ + A VALUE-BASED CARE PRODUCT

Administer and Monitor the CJR Episode and Gainsharing Programs

Population Payment Management Episodes of Care Module combines episode analytics with management and workflow tools for episode bundling and gainsharing administration to help you maximize revenue under the CMS CJR (Comprehensive Care for Joint Replacement) program.

Administer and Monitor the CJR Episode

- Automate ingesting and aggregating near real-time claims and quality results from your surgeons, SNFs, and other partners treating your patients during inpatient stays and post-discharge
- Review and evaluate costs and charges during the inpatient admission and 90-day post-acute care episode
- Use pre-packaged algorithms for flagging missing and potentially inaccurate charges
- Gain efficiency from workflow tools for managing each patient's cost and quality results
- Perform program reviews with dashboards and intuitive charts displaying cost and quality calculations against the target episode price, by surgeon, facility, etc.
- Leverage pre-built CJR program templates and evaluate program specific KPIs

Identify Best Post-Acute and Community Partners

- Evaluate historical and current performance of post-acute providers
- Determine average cost per episode of each PAC care provider/setting mix
- Develop patient-centric program offerings for the CJR model

Develop and Administer Gainsharing Programs

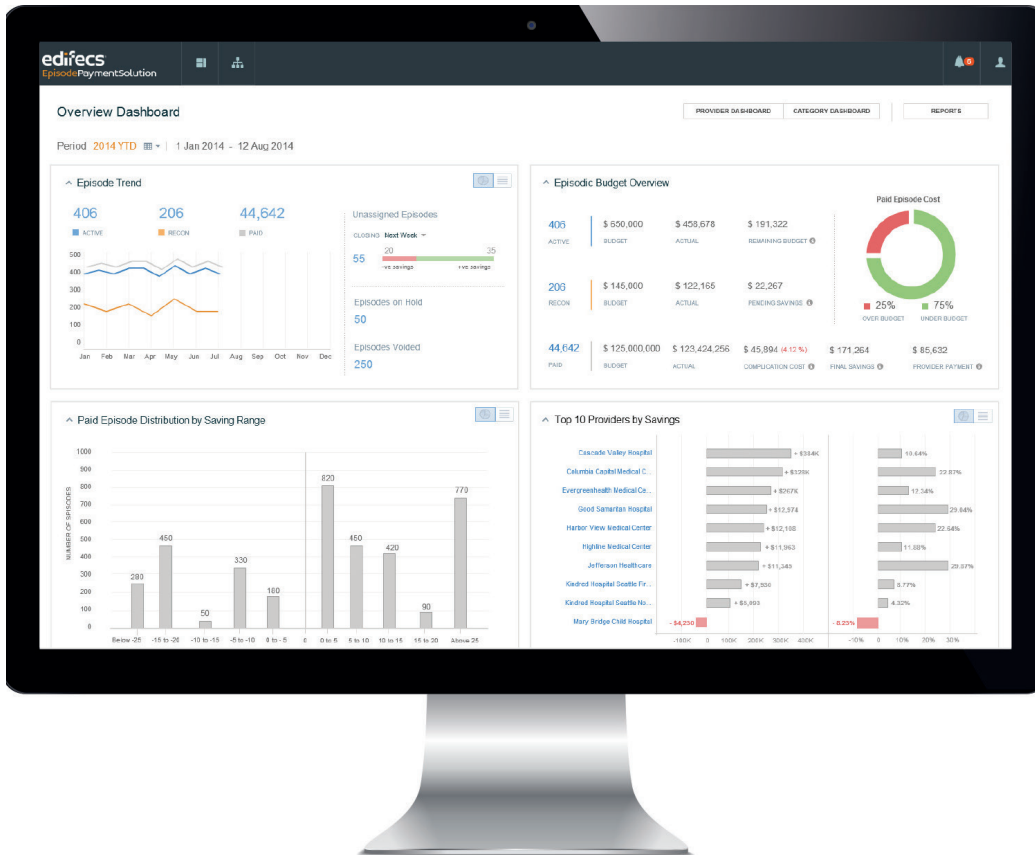

- Support multiple gainsharing initiatives, from program design to administration and payment request, using a mix of internal charges and external claims
- Generate and share real-time performance monitoring reports
- Establish regular workflow processes to evaluate and update partner performance

Audit and Validate CMS Facility and Region Data

- Develop final view of utilization and quality results in advance of the CMS report
- Ingest CMS data to identify and prioritize differences in result scenarios

Access Payment Reform Experts

Access our nationally recognized payment reform experts who will work closely with you to ensure that you are maximizing your opportunities to succeed under the CMS mandatory CJR care delivery model.

Edifecs Inc. is a global healthcare software company committed to improving outcomes, reducing costs, and elevating value of healthcare for everyone.
